LIPO!

Faster than any diet,
it's the secret surgery of
suddenly skinny stars

Who's had it?
Who hasn't?

HOLLYWOOD and plastic surgery practically go hand-in-hand. Some stars are very open about getting the fat sucked out of them, but some remain mum. Plastic surgeons Dr. Victoria Karlinsky and Dr. Lyle Back share their opinions but ENQUIRER readers, you decide: Who's had lipo? Who hasn't? And who is just plain-old lying about it?

KATHY GRIFFIN

Her liposuction was almost fatal. She put pictures in her memoir, saying: "I want women to know that this is what lipo looks like. Like, are you sure you don't want to just work out a little more?"

MARIAH CAREY
The pop star had twins in 2011 - and Dr. Karlinsky said: "She does look amazing. This is highly unusual after carrying a twin pregnancy." Mariah, she's decided, "most likely had some help."

CYNDI LAUPER

She's been keeping people guessing. The rumors persist, but mostly because Cyndi has been so outspoken about her botched tummy tuck surgery back in 2006.

KYLE RICHARDS
She's one of the "Real Housewives of Beverly Hills," which means real experience with lipo. "After having four kids, no matter what exercise I did, the love handles wouldn't go away," she said.

DEMI MOORE

The rumor is she had lipo before "Charlie's Angels: Full Throttle." She's said: "I would be lying if I said I don't have moments of panic when I look into the mirror and see things creeping in that weren't there before."

COURTNEY LOVE

The blonde rocker has admitted other surgeries - but insisted she's never had liposuction. It's hard to explain the weird lines around her breasts and ring of fat around her belly button.

TARA REID

A legend of bad lipo! Dr. Karlinsky said: "She's had overly aggressive liposuction which resulted in severe unevenness in the abdominal skin." Dr. Back added: "It makes her terrible breast implants look good."

KIM KARDASHIAN

Her ex-husband Damon Thomas said he paid for her boob job and liposuction. "She wanted to be what she ultimately became," he said. And that's sure worked out in her favor!

JESSICA ALBA

Founder of the all-natural Honest Company, Jessica may be less honest about her figure. Though her rep denied it, this actress is reportedly reliant on laser liposuction procedures.

DONATELLA VERSACE

The designer's countless surgeries include lipo. Dr. Back said: "Too skinny, body fat too low, and more loose, poorly aged skin - these are circumstances where one should avoid liposuction."

✓

HEIDI MONTAG

"Getting lipo is my biggest regret," Heidi said - after having fat removed from her waist, hips, neck and thighs. The reality show star insisted she developed cellulite from the procedures.

✓

SHARON OSBOURNE

"The Talk" host talked about life and lipo after weight loss: "After losing half my body weight, I had flesh hanging everywhere. I had liposuction on my neck and my arms."

JANICE DICKINSON

"I want to be the best-looking corpse there is," joked Janice - but Dr. Back said: "If you have wrinkly, loose, thin skin that has aged poorly, liposuction should not be done - it thins the skin further!"

STAR JONES

She dropped 100 pounds with a gastric bypass, and followed up with a tummy tuck and lipo. "I couldn't get rid of the stomach. I'd gotten rid of all the fat, but I couldn't get rid of the skin," said Star.

BRITNEY SPEARS

A source told The ENQUIRER in 2014 that Britney was on a \$150,000 makeover of dieting and exercise, including "LipoDissolve treatments on her butt, stomach and thighs at a Las Vegas clinic."
