REAL HOUSEWIVES, REAL PLASTIC SURGERY

My, how they've changed! The ladies of Bravo barely resemble their former selves

Better with age?

MAJOR WORK

RHOBJ star Kyle Richards, 46, says a nose job and lipo made her "feel better" and "happy," but NYC plastic surgeon Dr. Matthew Schulman suspects a face- and brow lift, too. "Her face is tighter," he says. "And her brows are elevated."

BOOBS AND BOTOX

Teresa Giudice, 42, loved the implants she got on a 2009 episode of *RHONJ*, but Dr. Schulman thinks she has another love, too: Botox! "When she's released from prison," he notes, "we'll find out!"

MOMMY MAKEOVER

Kim Zolciak-Biermann owns up to Botox, a tummy tuck and boob jobs. But NYC plastic surgeon Dr. Norman Rowe believes the *RHOA* alum, 37, "also had rhinoplasty" — a charge she denied on Instagram in March.

FILLER UP!

"I've overdone it at times," admits Brandi Glanville, 42, of her penchant for Botox and facial fillers. (She also cops to vaginal rejuvenation surgery!) Dr. Rowe also believes the *RHOBJ* pot stirrer uses silicone injections in her cheeks and lips.

Lip service!

ABOUT-FACE

Lisa Rinna has long been outspoken about her lips, which she had injected with silicone at age 24. "[It was a] stupid thing to do," admits the *RHOBJ* newbie, 51. Not stupid? The nose job Philadelphia-area plastic surgeon Dr. Lyle Back suspects she had. "Lisa's doctor did a great job," he says.

KEEPING SECRETS

The key to eternal youth? Denial! *RHONY*'s LuAnn de Lesseps says yoga and a healthy diet account for her glow at 49. "She's likely also had the help of Botox and fillers," says Dr. Schulman.

TOTAL OVERHAUL

Nose job? Check! Chin Implant? Check! Two boob jobs? Check and check! *RHOC*'s Vicki Gunvalson, 53 — who has also had fat injected into her face to erase lines — has been completely redone.
